Restriction/Election

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6 are drawn to a process for producing a culture fluid containing hTPO.

Group II, claim(s) 7-13 are drawn to a process for purifying hTPTO and a fraction containing hTPO resulting from the purification process.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because Groups I-II encompass different methods and a product that comes directly from one of the two methods. Under PCT Rule 13.1 applicant is entitled to the first product, method of using and making said product. Furthermore, Group II does not avoid the prior art because Kato et al. (J. Biochem. 1995, vol. 118, No. 1, pages 229-236, cited on IDS filed 2/28/07) teach purification of a human and rat TPO (see page 229). Thus, these

inventions are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. In addition upon election of the Invention of Group I, applicant is required to make an additional election of a single cell line (see claim 3) for examination on the merits, a species election.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
